Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Birds of the United States, East of the Rocky Mountains: A Manual for the Identification of Species in Hand or in the Bush Much interest and enjoyment may be added to our lives by familiarity with those most beautiful, sprightly, and musical forms of life, - the birds. Yet few of us know or even see more than a very small part of the feathered songsters of our woods, fields, and waysides. The object of this book is to encourage the study of birds by rendering it a pleasant and easy task. The introductory chapters explain briefly the meaning of technical terms used by ornithologists. These chapters are designed chiefly for reference, a much smaller vocabulary being employed in the body of the book. The descriptions have been prepared with great care, and present several advantages over those in other books: (1) They are short, being limited to points essential to the identification of the species. (2) They consist generally of only two connected sentences, which can readily be recalled while looking at a bird. They are thus especially adapted for field use. (3) Sufficient reference is made to the changes due to sex, age, and season, without describing in any particular species all the phases found in nature. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
