Mechanisms of Cell-Mediated Cytotoxicity

By Clark, William R.

Book Condition: New. Publisher/Verlag: Springer, Berlin | The First International Workshop on Mechanisms in Cell-Mediated Cytotoxicity was held at Carry-le-Rouet, France, September 14-16, 1981. The Workshop brought together for the first time leading investigators in each of the principal areas of cell-mediated cytotoxicity, as well as experts in the area of complement-mediated cytotoxicity. Formal research presentations were held to a minimum, the emphasis being on open discussion of current knowledge about mechanisms of cytotoxicity in each of the systems under consideration. The major objectives of the Workshop were 1) to compare and integrate what is known about the mechanism(s) of cytotoxicity in each system; 2) to determine whether, on the basis of information in hand, it seems likely that the mechanisms of cytotoxicity in the various systems are the same or are unique; and 3) to stimulate thinking about new approaches to elucidating the fundamental mechanisms by which certain cells are able to kill other cells. | Section I. Lysis by Cytotoxic T Lymphocytes: Morphological and Physiological Aspects.- Morphological Aspects of Lymphocyte Mediated Cytotoxicity.- Role of Cell Motility In the Activity of Cytolytic T Lymphocytes.- Discussion.- Cytolytic T Lymphocyte Recognition of Subcellular Antigen.- T Lymphocyte-Mediated Cytolysis - A Comprehensive...

Reviews

Extremely helpful for all class of people. We have read through and that i am confident that i am going to going to read through again again down the road. Its been designed in an exceedingly basic way in fact it is simply following i finished reading this pdf in which in fact altered me, alter the way i think.

-- **Noel Stanton**

Absolutely one of the best pdf We have ever read. I really could comprehended every little thing using this written e book. I am easily could get a satisfaction of reading a written publication.
